

## METAL 7 SLEEVES

Wear sleeves protect mechanical shafts and seals. The coating applied to the sleeves made by Metal 7 increases their lifespan and effectiveness, even in the harshest environments.

### BENEFITS OF USING METAL 7 COATED SLEEVES :

- // SIGNIFICANT INCREASE IN THE SERVICE LIFE OF THE SHAFT
- // COATING CHOSEN TO SUIT THE CONDITIONS OF THE OPERATING ENVIRONMENT
- // THE SLEEVE IS MANUFACTURED BASED ON YOUR SIZE AND TOLERANCE REQUIREMENTS

### METAL 7 SLEEVES CAN BE USED TO PROTECT MOST MECHANICAL SHAFTS, INCLUDING :

- // REFINER SHAFT
- // PUMP SHAFT
- // REDUCTION SHAFT
- // ANY OTHER EQUIPMENT THAT USES A SLEEVE

### USEFUL IN MOST INDUSTRIES, SUCH AS :

- // MINES
- // ALUMINIUM SMELTERS AND FOUNDRIES
- // PULP AND PAPER
- // PETROLEUM
- // MARINE

Thanks to the increased protection that Metal 7's coated wear sleeve process gives, you are assured to extend the life of your equipments.
